1. I'd like us to consider a summary such as the one John produced, a quick thumbnail sketch of our progress across the board to date.

2. Aside from such summaries, how should we report progress, especially how should we collect the results of our work (i.e., outcomes, curriculum maps, etc.)

3. Using the portal what would be the best way to organize this work.

4. If you have had a chance, bring your preliminary assessment of your program review status by department/major) using the WASC rubric handed out at the last meeting.

5. We should also review the new student course evaluations pulled together by Nathan and Paul.
